EXECUTIVE CERTIFICATION PROGRAM

Why This Course?

Most carbon market courses explain what carbon credits are. Very few teach you:

- ✓ Why one carbon credit sells for US\$5 while another sells for US\$250
- ✓ How carbon buyers evaluate projects before purchasing credits
- ✓ What makes a carbon credit credible
- ✓ How traders identify market opportunities
- ✓ How carbon pricing actually works
- ✓ How project developers maximize the value of their carbon assets

This executive certification is designed to bridge that gap by combining market intelligence, pricing strategy, project evaluation, and trading fundamentals into one intensive program.
